TRANSHIELD, INC. ACHIEVES ISO 9001:2015 CERTIFICATION ACROSS THREE LOCATIONS

Elkhart, IN, September 15, 2025 — Transshield, Inc. announces that it has received certification to ISO 9001:2015, the internationally recognized quality management system (QMS) standard. This certification applies to Transshield's facilities in Elkhart, Indiana (Headquarters); Del Rio, Texas; and Acuña, Mexico, validating the company's commitment to quality, consistency, and continual improvement in the design and manufacture of protective covers for defense, aviation, marine, and other industrial markets.

"This achievement is a testament to the hard work and dedication of our teams across all three facilities," said Mark Schuck, *VP, SCM and Quality Control* at Transshield. "Our certification effort has been about more than compliance, it's about strengthening our culture of quality, improving processes, and ensuring long-term value for our customers. I'm incredibly proud of everyone who contributed to this milestone."

Jim Glick, *President* of Transshield, added: "Becoming ISO 9001:2015 certified further demonstrates Transshield's commitment to operational excellence. As we continue to grow and serve critical industries, this certification gives our customers added confidence in our systems, people, and the quality of our solutions."

"Transshield, Inc. has demonstrated its commitment to world-class quality management by implementing and becoming certified to the ISO 9001:2015 standard. They have joined an elite number of organizations worldwide who have achieved certification to this globally recognized quality standard," said Ed Maschmeier, Vice President of PRI Certification. "PRI Certification is proud to partner with Transshield in this accomplishment and looks forward to continued support of their objective of quality excellence."

About Transshield

Transshield is a leading manufacturer of custom-fit covers designed to shield valuable equipment from harsh environmental elements. With over 30 years of experience, we have continuously developed technologies and processes that better protect equipment assets during storage and transport. Serving a diverse range of industries including military, marine, industrial, and aviation, Transshield provides tailored solutions that ensure equipment stays in like-new condition, ready for use.

About PRI Certification

PRI Certification is a not-for-profit organization specializing in third-party management system certification services. In 2024, the organization rebranded after acquiring SRI Quality System Registrar, MCNA, and Platinum Registrar, combining over 60 years of expertise. This merger strengthens its leadership in certification, addressing evolving needs in Quality, Data Security, Environmental, and Health and Safety standards.

The Performance Review Institute (PRI) is a not-for-profit trade association started in 1990. PRI is a global administrator of industry-managed critical process accreditation programs focused on improving process and quality with collaboration among stakeholders in industries where safety and quality are shared goals.
